

TECHNOLOGY TRANSFER PROGRAM

Your interest in equipment contribution is highly commendable, as it will facilitate other less affluent programs to make use of newer, more reliable resources than they presently have access to. This program is encouraged and endorsed by UNESCO and the World Council of Optometry. Your contribution will be recognized by VOSH-INT as a tax-deductible contribution to a non-profit 501c3 corporation and an appropriate letter will be returned to the contributor in recognition of their contribution. We ask that photos for all donated equipment be up-loaded to our Webmaster at voshinternational@comcast.net with a description of condition and availability. Those items that are less than 40 lbs and portable may be shipped to:

**Mr. Max Bruss
C/O VOSH-Southeast
3701 SE 66th Street
Ocala, FL 34480**

The most desirable items that programs in developing countries are in need of are:

- **Trial lens kits**
- **Battery powered hand scopes**
- **Assorted pliers and optical tools**
- **Hand stones for edging glass lenses**
- **Uncut lenses; both SV and BF**
- **Manual lensometers**
- **Phoropters**
- **Lens clocks**
- **Color vision tests**
- **Keratometers**
- **Biomicroscopes**

This list is certainly not complete but gives you an idea of some of the basic needs these developing programs can benefit from. Thank you for your participation in what

VOSH INTERNATIONAL hopes to have a very productive program to assist our colleagues in Optometry programs worldwide.

Thank you,

VOSH INTERNATIONAL MANAGEMENT Resource
